REQUEST FOR PROPOSALS

WV Criminal Justice Reform Coalition

Project: Web Design and Social Media Management

Our coalition seeks a vendor with experience in Web design and social media management to create an online presence for our mission of reforming criminal law in West Virginia. The website should be easily navigable and intuitive for both users and administrators. It will serve as a hub for member organizations to share updates, craft blog entries and news stories, issue press releases and issue calls to action. Vendor will provide one year of troubleshooting and basic maintenance. The vendor will also create/repurpose Twitter and Facebook accounts to complement the site.

About Our Coalition

We advocate that policies focusing on rehabilitation and re-entry to society replace those centered in excessive punishment. This means the elimination of policies like cash bail, mandatory minimums, life sentences, and other overly punitive measures.

Equal Opportunity and Affirmative Action

As part of our commitment to empowering marginalized communities, we encourage proposals from all qualified individuals without regard to race, color, religion, gender, sexual orientation, gender identity or expression, age, national origin, marital status, citizenship, disability, veteran status and record of arrest or conviction.
